

eprintfast Orientation Instructions

Instructions for Most Double-Sided Products

Double-sided products have designs printed on both sides of the product. For example, Business Cards, Postcards and Lawn Signs are all popular double-sided products.

Do both pages of your design have the same orientation?

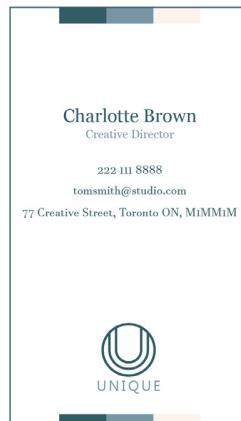

If yes, then ensure that your PDF file is saved in the same orientation as the design.

Front

Back

For a vertical design, save PDF file in **portrait format**.

Front

Back

For a horizontal design, save PDF file in **landscape format**.

Do the pages of your design have different orientation?

If yes, then ensure that your PDF file is saved in the same orientation as the first page of your design.
